Paris. Jan 13.—There is profound relief in publican circles to-day over the statement of Charles de Lesseps implicating Arthur Meyer, editor of the Gaulois, as having re 100,000 francs from the Panama com pany. This at last brings the Royalists into the dragnet and shows what the friends of the republic have claimed from the begin-ning of the scandal, that Republican officials and journalists did not have a monopoly nama corruption. The fact that oulapgist Deputies are said to be put under strong suspicion by evidence before M. Franqueville, is also considered as engthening the cause of the republic, by ing the hypocrisy of those who assail i n the pretended interest of better govern-The Government has also been con erably strengthened by the speech Chancellor Von Caprivi on bill. This has in the gree diverted attention from Panama fairs and aroused a deeper interest in the reign concerns of France and in the neces ity of Frenchmen standing together against nies abroad. The situation to day is therefore improved, and, although the re publishes a sensational article signed by the editor-in-chief, urging Carnot in the nterest of the Republic to resign, very little is heard of adverse criticism upon the Presi-

It had been alleged on the strength of these initials that M. Roche had received 20,000 francs from Reinach. The evidence against others, who have been accused, is said to be no stronger than that against M. Roche.

The evidence against ex-Minister of Public Works Bailut continues, according to report, to grow stronger. Bailut, says the Siecle, admitted yesterday that he had received 455,000 francs for supporting the Panama lottery bill. Bailut, it is said, will make no defense to the charges against him. He is deserted by nearly all his friends, although his wife adheres to him with pathetic devotion. There seems to be a disposition to lay upon Bailut the chief responsibility for the disgrace and loss to the Republic resulting from the Panama lottery bill, and the prosecution of the ex-Minister will be vigorously pushed. The evidence against ex-Minister of Public

Attention is called to the fact that the editor of the Gaulois, to whom Charles de Lesseps testified that he gave two checks for 100,000 francs in all, recently printed the malignant story that Mme. Carnot paid for her charitable gifts to the poor out of Panama funds. There was not a word of truth in the general parties of the poor out of the charles the editor who made the charge had the coolness to leave his card for Mme. Carnot and to write on it, "Ayec mes restets."

Several prefects from the interior attended at the Ministry of the Interior to-day in order to receive strict instructions to deal promptly with all attempts made by the enemies of the Republic in their districts during the present crisis in the affairs of the country brought out by the Panama scandals.

the present crisis in the affairs of the country brought out by the Panama scandals.

A prominent Republican says "The great object of the reactionists of all parties is now to disgust M. Carnot with the exercise of power and to get him to resign before the election of a new Chamber of Deputles. This chamber just now stands too badly in the eyes of the country for a President elected by it to have great weight in the eyes of the nation. The character for integrity and disinterested devotion to the public weal which M. Carnot has justly won may be a tower of strength to the Republic between the present time and the time fixed for the general elections. He can speak to the country with the certainty of being listened to with deference and any advice he might give being followed. A presidential message to France would not be to his taste but he has established in his many official tours into the provinces the means for making his voice heard without breaking through the rule of ministerial responsibility, of which he is, under all circumstances a strict observer. He is fortunate to have grouped around him some of the men who have escaped from all aspersions and have clean reputations for probity. The campaign against the Elysse will be removed on the eve of the general election. It

Tammany's Fortunes Rest in the Hollow of His Hand.

Chief Croker Warned to Muzzle His Dogs of War.

AN INTERESTING STAGE OF NEW YORK CITY POLITICS.

Threat: Made by the Senator's Friends of the Creation of a Rival Crganization That Will Crush the Wigwam-Some Unpublished Political History of the Empire State Brought to the Surface.

New York, Jan. 13.-Tammany's allege family turmoll continues to excite the interest of politicians throughout the Empire State. Especially is this true of New York City, little else is talked in hotel corridor and resorts where men interested in politics congregate, and everybody seems to be ask-ing: "Is this mountain laboring only to ing: bring forth a mouse, or will it be a regular political volcano?

According to the political gossips, if Mr. Crokerdoes make war on Hill it will cause the downfall of Tammany. Here is what an Albany correspondent of a morning paper

has to say on the matter:

Richard Croker's sudden and unexpected attack upon Hill, made last Thursday, and the story that has grown out of it that Tammany is anxious to throw Hill over, have aroused the friends of the Senator. have been studying the past and have recallle facts and circumstances that prove to their minds three things. To the Senator they say Tammany owes its present strength nd influence, to the Senator Richard Croker owes his success as a leader, and if ammany raises a had against the Senator it will show the blackest ingratitudeland will cause its ows downfall. The men who make

these statements make them positively. One of Hill's friends said that Croker wa mightily jealous of Hill, because he recog nizes in the Senator a master. "Hill is bright," he said, "while Croker is lazy and low. Hill depends on his public utterances Croker upon his silence. Hill is miles above him. If Croker dares show his teeth Hill will come back to this city during the summer vacation, and by fall he will have s nachine built up that will crush Tammany into atoms. Croker as a factor in State politics should know that he is not capable of grappling with the Senator, and he had better not try it. Hill can get along very well without Croker; Croker cannot get long without Hill. Warm friendship has never existed between the two men. They are too far apart mentally. A warm friendhip does exist between Croker and Murphy. They are two of a kind. The idea of a man ike Croker turning Hill down is absurd. If croker is not careful how he walks Hill will urn him down. Neither Hill nor his friends believe much in Tammany's politics. Tamnany men play politics as an Irishman plays the violin-by main strength." Continuing, the correspondent relates a

little ancient political bistory, in which he shows how Senator Hill saved Tammany from defeat in the mayoralty contest of 1890. and secured the election of Mr. Grant. He then goes on to say: "After the battle was ver a Tammany man called on the Governor and thanked him for his service. The Govrnor looked steadily at his caller and said savagely: 'I went to New York to help you out of trouble. I stopped you when I knew you were on the point of making a deal with the common enemy for the sole and selfash purpose of strengthening your own supremacy, and without any regard for the welfare of the State Democracy. Then I interfered. Remember henceforth that under no circumstances can you keep your hands clean if you consent to form any sort of an alliance with the party which it is your duty to sturdily and bitterly combat."

Friends of Mr. Hill say too that in 1891 the wigwam would not have had a full representation if it had not been for Hill. About this time Tammany, flushed with the consclousness of power, became arrogant. Hugh McLaughlin was offended by some of its overbearing acts and suked. For months under a placid surface the political waters bubbled furiously. The services of Mr. Hill were obtained and by his exertions the storm was quelied. Senator Hill's friends relate these things to show that without his aid Tammany would go to pieces soon. Referring to the session of the kepublican Legislature in 1889, he says that Mr. Hill votoed every bill in which Tammany was interested.

'Tammany's new general committee held its first meeting at the society's rooms last night and organized for the ensuing year. Many words of praise were uttered by speakers for President-elect Cleveland. The nomination of Murphy for Senator was also approved of.

The visit of Mr. Cockran to Cleveland has and selfish purpose of strengthening you

nomination of Murphy for Senator was also approved of.

The visit of Mr. Cockran to Cleveland has aroused a livelier interest than ever in the future relation between Mr. Cleveland and Tammany Hall. Mr. Cockran declares that more importance has been given his visit than it is entitled to and that his meeting with Mr. Crocker and Police Commissioner Martin at the Hoffman House on Thursday night immediately after his arrival was accidental.

night immediately after his arrival was accidental.

Mr. Cockran was asked about his interview with Mr. Cleveland.

"I don't care to speak of it except to say that I did not come here especially to see Mr. Cleveland," was the reply. "I went to see him because I desired to talk with him about legislation now before Congress. Mr. Cleveland received me kindly and I was glad to have occasion to talk with him."

"Is it peace or war between Mr. Cleveland and Tammany Hall!"

"I did not come to see Mr. Cleveland about that and it is not necessary for me to talk about it. There can be no war with Mr. Cleveland in this city or State are concerned. Tammany Hall will cordially support air. Cleveland in anything he may desire to do."

Washington, Jan. 15.—The story going the rounds of the country that Representative Breckinridge of Kentucky is after the seat in the Senate made vacant by Senator Carlisle does not correspond with the views expressed by Mr. Breckinridge. views expressed by Mr. Breckinridge. Whether or not the Kentucky Congressman will contest for the Speakership with Mr. Crisp in the next Congress remains to be seen, but as regards the Benatorial question Mr. Breckinridge has declied views. "I am in no sense a senatorial candidate," said he, "and all talk to that effect is simply absurd. I represent my own little Kentucky District in the House and am content to remain where I am. There are a lozen or more of my friends who are in the fenatorial race and is would not be very chivalrous for me to contest with them. You can count me out."

Representative McCreary was quite outspoken on the subject of his candidacy for the Senate. Said he: "I have always been a warm Cleveland man, first, last and all the time. It is too early yet to do much, and it the support of Mr. Cleveland's friends.

It is reported on good authority that instore leaving Washington for Kentucky Mr. Carlisle mailed a letter to Mr. Cleveland accepting the Secretaryship of the Treasury. It is said that Mr. Carlisle accepted the portfortio on condition that he should have the solid support of the Administration in his candidacy for the presidential nomination in 1896. Mr. Carlisle is said to have received the assurances of good will from Tammany. He strongly favored Mr. Murphy for Senator, and urged Mr. Cleveland net to oppose the latter's candidacy. Mr. Carlisle will have a consultation with Mr. Cleveland in New York next week.

Senator Carlisle, while visiting at his former home in Covington, Ky, talked freely about his acceptance of the office, of Secretary of the Treasury. He said k was important that his successor should be elected in time to take his seat March 4, and that he would mail his resignation after he returned to Washington. It is understood that he has not yet formally notified Mr. Cleveland of his acceptance of the office.

RECORDER CARLISLE TESTIFIES.

Previous to the opening of the box Recorder Carlisle was put on the stand and after being sworn by Notary Duggan was examined by Judge Scott, counsel for Mr. O'Neill. The first point of interest in his testimony was the fact two of the ballot boxes had not been received until the day after the election. The box from precinct 153, Twenty-eighth Ward, did not come in until the following morning and from precinct 154 until list, Twenty-eighth Ward, did not come in until the following morning and from precinct 154 until the following afternoon. He also stated that all rejected ballots were returned to him in envelopes, which were placed in the proper ballot boxes. The question of revisors of election was gone into very minutely, the duties of the deputies and their manner of work being elicited from the Recorder by close questioning. Judge Scott asked if in his appointment of revisors he had been influenced by recommendations from either party. The Recorder said no except in two instances, both outside of the Eleventh District. The Recorder then gave each of the members of the board serving in the Tenth District with their politics. The summary showed that there were eight Democrats and six Republicans on the board in the ward. Judge Scott then went list of the Board of Revision matter very extensively, and seemed highly phased when he scored the point that parties whose names had been stricted on the lists had not two full days in which to appear before the board for reinstatement.

Mr. O'Neill wanted the ballots counted and the unused tickets also so that a comparison might be instituted between that to all and the number of tickets furnished the precinct by the Recorder. But the Recorder inter-

He explained the action of the Democratic and Republican keys, both of which had to be used simultaneously. The box was then placed on the floor and opened. The contestor and contestee, lawyers and spectators gathered around, standing on chairs and tables to get their first glimpse at the inside of a ballotbox. The box was absolutely congested with ballots, and Mr. O'Nelli remarked that it had the appearance of a well-stuffed box. Both sides bantered each other while Deputy Maroney struggled hard to get the bundle of ballots out. They had been wedged in firmly and it took the united efforts of three men to bring forth the congested mass. The bundle was placed on the table, examined and then the livestiration began. Several spectators got out note books, a fact noted by Judge Scott, who moved that every one but parties directly interested and members of the press be excluded, but Mr. Frank interposed as the question of who had voted was not to come up until later on.

Deputy Maroney agreed to examine the ballots, first giving out the name of the selected congressional candidate, then the number of the ballots and finally to describe any peculiarity pointed out by either Mr. O'Nelli or Mr. Joy, who sat by his side. The first ballot was regular and was cast in Joy's favor. The second was a Republican ballot, but the scratcher had not worked his pencil down far enough to reach the name of John J. O'Neill. So that the candidate for Congress had not been scratched, Further along a ballot turned up with not a scratch on any ticket but the Democratic which was scored from top to bottom. Another ballot had evidently been voted by a man without a pencil, as there was not a mark on it. One of the judges had his initials on the back, nevertheless. At one point Mr. O'Neill remarked that the ticket was scratched in wavy lines. Mr. Frank asked his reason for the description and the ex-Congressman replied that he wished to show that the tickets

It appears that a dance given at the residence of Bob Short. given at the residence of 1800 Short. There was in attendance a young man named Will Louallen, who became troublesome. Short remonstrated with him, when Louallen drew a revolver and shot him dead. The tragic affair has created the wildest excitement in that locality and the murder is pronounced cowardly and uncalled for.

RIVAL BANDITS IN BATTLE.

New York, Jan. 14.—A dispatch from Hazelton, Pa., says: The gang of highwaynen which has been terrorizing Freenlan and its vicinity has been broken up and five and its vicinity has been broken up and five footpads are under arrest. Three of the gang were delegated to make a coup Wednesday night. They had hardly reached cover when two men were seen coming up the road; these happened to be on the same mission as the robbers in ambush, and when the latter sprang from their hiding place their surprise was mutual.

A flerce fight with sand bags, clubs and pistols ensued and the attacking party was eventually defeated. When the three beaten bandits reached their homes at Highland their mutilated condition attracted attention. To vindicate themselves they brought

their mutilated condition attracted atten-tion. To vindicate themselves they brought suit against John Lask and William Mace. At the hearing to-day one of the gang "peached." It was shown that the plain-tiffs were the aggressors and that they be-longed to different gangs. All five men were taken into custody.

A MYSTERY CLEARED UP. DES MOINES, Io., Jan. 14.—The mysterious disappearance of Edward Lewis a bookin the employ of the Des Moines Packing Co. has at last been cleared up. Lewis was one of the most prominent sociaty gentlemen in the city. He was a stepson of W. W. Witmer, the proprietor of the packing houses, and one of the wealty men of Des Moines. The young man is in Canada, and he took with him in the neighborhood of \$50,000 of his father's money. His wife, formerly Miss Rose Ankeny, left for Chicago a few days ago, and from there intended to go to Canada to join her husband. Since the amount of Lewis' shortage has been made public the affair has caused no end of talk. Packing Co. has at last been cleared up.

MINNEAPOLIS, Minn., Jan. 14.-Shortly after o'clock last evening three young toughs walked into the cigar store of John P. Henry "the stuff" money drawer. Mr. Henry did not weaken, but jumped over the counter and pitched into the robbers. One of them fired at him but the bullet only grazed his cheek and lodged in the wall. The thieves secured his watch and -chain and rifled the money drawer of \$50 in cash. The store, was well

the the roubery was being perpetrated.

THE JURY LOCKED UP. CHEYENNE, Wyo., Jan. 14.—The ninth day of the cattlemen's trial has just ended and the twenty-three men charged with murder and arson have the freedom of the city, but nine talesmen are locked up every night. So far there have been examined 544 candidates for jurors. An even fifty out of 414 pre-emptory challenges have been used. There is not the remotest possibility of securing a jury.

DEIVERSAL DISCUSSION OF THE DAY AMONG BUSINESS MEN IN CLUB MEETINGS

Put on the Martin Property by cominent Realty Owners—Opinions on 8 Present and Future of Washington venue—An Untimely Auction.

ot often that there is an event of sufiant importance in the real estate market engage the close attention of the leading pitalists and business men of the city, but ere is now a block of central down-town operty that is talked of more than any ansaction has been for ten years past. On nge at the Mercantile Club, and wherever tate affairs are discussed, the main for several days past has been the rtin property on Washington avenue, ich is to be sold to the highest bidder on

a real estate auction on 'Change is I itself somewhat of a novelty, it is not hat unusual discussion among the bulls and rs that excites such universal comment, out the question that is agitating these peculators and other investors is, "What till the Martin property sell for?"

ood many bets have been made already he anticipated results of the auction, and discussion on the subject increases a this is apparent in the recognized fact that this is the choicest and most valuable busi bess property over offered under the ham St. Louis, and it being the only vacan site left in the down-town section adds addi-

tional importance to the occasion.

Man's ideas as to the value of this ground are in some instances as peculiar as they are wide apart and for that reason the remarks of a few of them on the subject are presented as follows to the readers of the Post-Dis-

PATCH.

Mr. L. M. Rumsey has made a great deal of money out of Washington avenue property. He owns a great deal of real estate on that street and his interests there have led him to make a close study of the distinguishing features that make the avenue such an important thoroughfare. The reason for the prominence of the avenue and its real estate values was its location, at the center of

prominence of the avenue and its real estate values was its location at the center of population of the city east and west. It is also the grand main highway into St. Louis over the Eads Bridge for the people of the State of Illinois, and who can say that the city at the east end of the bridge will not have a population of 600,000 people in a few years? Even now the bridge company is making arrangements to land rallway passengers at Third street, to overcome the universal objection of passing through the tunnel. All this means a massing of people on Washington avenue, and where the people most do congregate there is the place to sell goods and do business. The whole Lindeil Electric Rallway system pours its passengers out along Washington avenue, and then there is the Benton-Bellefontaine Electric Line. I have been told, 's said Mr. Rumsey, 'more street railway passengers ride over Washington avenue than any other street in the city. As to the block west of Tenth street I consider it the more valuable than property between Sixth and Seventh, opposite the Lindeil Hotel. There is a better and heavier class of business nearer Tenth street. Beside that it is my experience that property elose arounchlarge hotels or union depots is never so valuable as people imagine. Shops on the ground floor around such places always bring immense rentals, but the heavy business and tall commercial buildings where elevators make an office or salesroom on the first floor, are always found further away in an entirely different locality; therefore the more remote vacant sites are of greater value. The best wholesale trade of the city is already located on Washington avenue, and the heaviest business is carried on directly opposite the vacant property to be sold. I am not sufficiently well posted on Lucas avenue to estimate values on that street, it has improved so much lately, but I should say that the 86 foot corner on Washington avenue and Tenth street is worth \$2,600 a foot and the 66 feet next to it \$2,000 a foot, fit owned the co

James M. Carpenter, one of the most conservative real ostate agents in the city, is Vice-President of the Lindell Real Estate Co., and next to the largest stockholder in that corporation, which owns all the property on the north side of Washington asenue west of Thirteenth street as far as the old Cyclorama building. Mr. Carpenter is classed as one of the most conservative real estate agents in the city where he has made a study of values the occupation of a lifetime. He says the 85-foot corner on Washington avenue will bring \$2,000 a foot and the two 80-foot lots next west of the corner to \$1,600 a foot. The Lucus avenue corner will sell for \$800 a foot and the inside lot at the corner of the allay on that street \$600 a foot. Better prices, in his sudgment, than these might be had if the auction took place later in the year. At this season he says there is no difficulty in placing money at \$6 to 7 per cent interest, Later on, when there is not so much demand for money, if cannot be put out at such advantageous rates of interest, and under these conditions people with a surplus on hand would be more ready to invest and pay higher prices than they do now. The property is the choicest vacant realty in the city finer than any that has been offered at auction in ten years past. It is very valuable, for business purposes, and it will go much higher than the prices I have given, remarked Mr. Carpenter in conclusion.

J. H. Chassaing, proprietor of the Lindell Hotel, who in company with his partner lately bought that property, has reason to know a good deal about Washington avenue values. He says Mr. Mallinckrodt made a very cheap purchase when he bought the site of his new building in process of construction on the northwest corner of Ninth and Washington avenue at \$2,000 a foot. Considering the extensive business firms established on the opposite side of Washington avenue and the price of Washington avenue and others which will occupy the two large buildings now being built on the northwest corner of Ninth and Washington avenue at \$2,200 a foot. The southwest corner of Lucas avenue and Tenth street at \$2,600 a foot. And the price of the sevenue and Tenth street he places at \$350 a foot, and the 55 foot inside lot next to the 20 foot right of way at \$500 a foot, and the 55 foot inside lot next to the 20 foot right of way at \$500 a foot, and the 55 foot inside lot next to the 20 foot right of way at \$500 a foot, and the 55 foot inside lot next to the 20 foot right of the partners o

Mellinckroot, and still retain 170 feet adjoining on the inside, which if am holding at 15,000 a foot and consider it cheap at that price in view of the large fine buildings which Mr. Mellinckroot and Mr. Martin are now erecting on the block. Considering these improvements I should say the 26 feet at the northwest corner of Tenth street will sell at 27,500 a foot, and the next sixty-foot frontage will bring \$1,000 a foot. The southwest corner of Lucas avenue and Tenth street is worth 500 a foot and the inside fifty-five feet next to it \$500 a foot. This is a class of properly that will sell just as well in January as it would in July, as it can only be bought by mean of large means, and they can buy at one time as well as another.

J. G. Branct, having invested a good deal of money in Washington avenue business property within the past year, is necessarily well posted in values on that street.

He said he had been repeatedly importuned to place a price of not one of the reason, that it is not for sale. If the sold the property he would not know what to do with the may as he could find no property or he would not know what to do with the may as he could find no property or a he could find no property or a he could find no property or a savenue investment. He put an average valuation of \$2,000 a foot for that portion of the ground to be auctioned which faces Lucas avenue.

Meyer Bauman, who has made a good deal of money operating in Washington avenue property, says the vacant ground west of Tenth street will average \$2,800 a foot, that is for the whole of it extending through the entire block from the north line of Washington to the south side of Lucas avenue.

John W. Hogan, a recognized authority on central values, a man who has operated extensively in down-town ninety-nine year leases, said he would not like to go on record in placing a higher value than \$2,500 a foot for the northwest corner of Washington avenue corner and \$600 a foot for the inside fifty-five feet on that street.

Mr. Hogan was of the opinio

more, for it has a 20-foot alley on its west line, as well as the 20-foot alley in the rear, and that is a great advantage in receiving and shipping goods.

P.J. Cunningham estimated the Washington avenue corner at 42,600 a foot, and the inside 60 feet at \$2,00 a foot. He sold a Lucas avenue corner at Eighth street at \$750 a foot more than two years ago, and he therefore considers the southwest corner of Lucas avenue and Tenth street worth \$850 a foot, and the inside ground next east of the twenty-foot alley worth \$600 a foot.

Chas. H.-urner: "That is very fine business property, the best vacant ground in the city, and it will continue to enhance in value with the growth of St. Louis. I should say the Washington avenue frontage ought to sell at an average of \$2,000 a foot, and the Lucas avenue ground at an average of \$1,000 a foot."

Claude Kilpatrick: "Liggett & Myers paid 5955 a foot for the ground their building occupies when they bought to average \$1,500 a foot at the auction, and that fronting Lucas avenue will average \$500 a foot. Their wallustion avenue ought to average \$1,500 a foot at the auction, and that fronting Lucas avenue will average \$500 a foot. Their valuation on the southwest corner of Lucas avenue and Tenth street was \$800 a foot. Their valuation on the southwest corner of Lucas avenue and Tenth street was \$800 a foot, and \$775 a foot for the inside property.

Otto L. Mersman, of Nelson & Mersman, said the Washington avenue frontage would average \$2,500 a foot and the ground facing Lucas avenue an average of \$775 a foot, It is property that is bound to bring good prices on account of the splendid new improvements that are being made in the vicinity.

Dr. Haydel: "For the Washington avenue \$6,000 a foot or the less foot corner I should say \$2,500 a foot, \$1,500 a foot for the next \$5 foot."

Speaker Douglas was in the chair for the Republicans at the time, and Speaker pro tem. Semple for the Populists. The debate in the Senate over the recognition of the Populist House came up

tion of the Populist House came up at 11 o'clock on presentation of the House concurrent resolution. O'Bryan (fusion Dem.) of Wichita moved that a consideration of this resolution be deferred until Monday, and a red-hot debate followed. Dillard (Pop.) of Bourbon County joined O'Bryan and Taylor (Pop.), and in a speech stated that while his sympathies were all with the Populists and he had every political reason for acting with them, in this matter there was simply a proposition of right and wrong and he must protest against any recognition of the House. The Populists cancus had determined to rush the concurrent resolution through, and after two speeches from O'Bryan of Sedgwick, who led the fight for the opposition, demanded the previous question.

The motion to defer the consideration of House concurrent resolution until Monday afternoon was lost by a vote of 22 to 17. This was really a test vote, showing that the Populist strength is sufficient and the determination to recognize the Populist house fixed.

TOLD BY DETECTIVE DRUMMOND.

How He Protected Bascomb From a Green Goods Man He Could Not Arrest. m the Cleveland Leader

Chief Drummond of the United States Treasury secret service tells a good story. A man named Bascomb came up from Tennessee. He had received a green goods circular, and had determined to trap the swindlers. Drummond was detailed to go with him. "I put on a flannel shirt," says Drum mond, "an old pair of trousers, a rough pair of shoes and a soft hat and followed Bas-

comb to the meeting place. He was accosted by a man who took him into a build costed by a man who took him into a building. I followed and stood upon a stairway where I could watch the door leading into the office of the swindlers. After awhile the door opened and Fowler, a noted green goods man who was then employed by the Davis brothers, stepped half, way into the hall. He had a value in his hand and was neither in the office nor out of it, but stood in the door. Bascomb had his eye on Fowler all the time, as I afterward, learned, while Fowler was in the door a colored boy darted across the half with a valies in his hand. The exchange was made so deftly that Bascomb didn't see it. In a minute Bascomb came out and he and Fowler started for an express office. I followed. They took a stage and I took one, too. Their stage stopped quite often, but mine didn't, and at times I found I was abreast of them. Fearing that Fowler might recognize me, I would lie down flat upon the floor of my stage whenever I got near the one I was following. The passengers were amazed, and thought, I suppose, that I was an escaped lunatic. Fowler and Bascomb left their stage near the Adams Express office, and I alighted from mine. Just as Fowler was in the act of handing the valise to the receiving clerk I tapped him on the shoulder and fold him that I wanted him, and "that, too," pointing to the bag.

"Bascomb was delighted. The each into the bag." ing. I followed and stood upon a stairway

"What did he mean by that?" asked Drum "What did he mean by that?" asked Drummond.

"He meant that the Davises were to pay him \$100 for the part he had taken in the swindle, and that they would give me \$50 if I didn't interfere."

"He-dd-Fowler and Bascomb into a hallway next to the express office," continued Drummond. "and cut open the valies. It was filled with damp paper and a block of wood. "I'll be tetotally goldarned, 'said Bascomb. 'How did you do it?' he asked Fowler."

"And you arrested Fowler," said I.

"No, I let him go." Drummond replied. "There wasn't a point to be made against him under the law. There was no counterfeit money in the bag. On the other hand, Fowler could have had me arrested for highway robbery, but of course he didn't. He was glad enough to make his escape."

"And Bascomb?"

"Oh, he returned to Tennessee with his comb cut."

CONDITION OF THE TREASURY.

There has been more or less comment on the action of Chairman Springer of the Ways and Means Committee to investigate the condition of the Treasury. That this comment has been productive of a change of sentiment on the part of the Chairman was manifested to-day when he increased the membership of that committee by adding Mr. McMillin and Mr. Payne. This makes the committee as follows: Messrs. Springer, Turner, Wilson, West Virginia, and McMillin, Democrats; and Messrs. Reed, Burrows and Payne, Republicans.

The twenty-fifth annual session of the Women's National American Suffrage Association will open to-morrow with a religious service in the Metzerrot Music Hall, Rev. Anna F. the other hand, the dog that has been promoted at once assumes a self-conscious strut. The old adage that dog will not eat dog was proven repeatedly on my trip. On one occasion a dog received no food for nearly five days, because we had, through the bungling of a lying guide, underestimated the length of a march and had run out of the supply of dried salmon, which forms the sole diet of the Esquimau dog. In consequence we lost half a dozen of our faithful animals by starvation, a trial which to me was more agonizing than any personal suffering. I never saw during this period of misery a single sign shown by any one of the team of a desire to satisfy his cravings upon the body of his fellow.

satisfy his cravings upon the body of his fellow.

Fidelity is the chief virtue of the Esquimau dog. One of my leaders, when crippled by starvation and overwork, had to be abandoned, because he refused to be carried on the sled. I left him behind, feeling as if I were tearing myself away from a dear friend, but before we continued our way I gave him the last fish we had, depriving ourselves of that much food. Three days afterward, while we were encamping at the Esquimau village of Kahonak, the dog reached us, having followed our trail with bleeding feet and emaclated body for eighty-five miles, forty-five of which consisted of crossing the surface of the great Lake Illamna in a "poorga" (a rather exagger ated species of blizzard).

"He lay in the corner of the car flat on his face. Trunks were slapped against him and the baggage men stumbled over him, but to all intents and purposes he was a dead man. I gave him an emetic and walked him about the car and bathed his head with ice water. In an hour he was able to sit up. I talked to him like a Dutch uncle, and he promised to swear off. He was going to a good job in Boston, and he said that in future he would be a temperance man.

"Five years after, as I was passing through my train, a nicely dressed man said to me:

"Mr. Bailey, qo you remember a man you sobered up coming down from Montreal one night about five years ago? It was the same man.

"You did me a great kindness at that time, he said, and put his hand into his valise and took out—"

Mr. Bailey leaned forward, and looking out the car window, followed with his eye a farmer walking slowly across a roughly ploughed field thickly strewn with stumps.

Proud of his family, for he is the grandson of the great batriet whose name he bears, and proud of his war record, for he was a fighting artillery officer and was wounded at the front, he was always popular with the government at Washington. It has been well said that his clear sense of duty was never known to fall him.

Gen. Hamilton was educated at Columbia College, and also studied for awhile under Capt. Kingsley at West Point. At an early age he was left the care of his family estate in New York City. At the breaking out of the war, he was actively employed in organising

and forwarding troops to the front. In May, 1861, Gen. Scott assigned him to duty at Arilogich House, Va. In October of that year, after a vigorous ser-vice in various fields, having recruited several brigades of volunteers in New York City, he was ap-peinted Brigadier-General of Volunteers by the President, at Gen. Scott's request, and was ordered to a command in the regular artillery. He was ap-pointed Major-General at Falmouth, Va., by the President, in 1863, having served continually antil that time, and was thereafter in special service until the close of the war. He was one of the guard of honor to Lincoln's remains.

Since the close of the war, although he has always been interested in Grand Army affairs, and is a Past Commander of Post 182, Department of New York, he has devoted much of his time to church and literary work. The New York Democratic machine ha at last struck the rock which lies in the pathway of every form of political bossism An issue has been made with it in behalf of the people by a great and fearless newspaper. The WORLD boldly proclaims that New York is ruled by an oligarchy of four osses, Hill, Croker, McLaughlin and Murphy, and denounces their tyranny as an intolerable usurpation of popular sovereignty.

The machine bosses forced the issue which the World has taken up. Under the intoxication of power they have fallen into that tyrannical madness which invites destruction. They have defied public opinion, trampled upon the rights of voters and outraged popular sentiment. They have abused the power placed in their hands by the voters, to serve their own personal ends without regard to public or party interests of the will of the voters. Their personal desires and the reward of their personal supporters and tools have been paramount to all other considerations. From the time that, in compliance with the demand of Hill, the machine resorted to a snap onvention to force the New York Democracy into his support and attempted to dictate his nomination to the Democracy of the country the machine has plunged towards its downfall. Its latest act in foisting Murphy upon the State Democracy as its candidate for Senator in defiance of propriety, the party will and the protest of the Presidentelect was the acme of intolerable bossism, and the revolt which is foreshadowed in the WORLD's declaration was in evitable. The selfish forces which build up a pólitical machine are the forces which ultimately destroy it. They have reached climax in the New York machine and the beginning of the end has come.

The courageous denunciation of the ma chine by the WORLD is full of significance It means that the voters of the New York Democracy will have a powerful champion on their side. It means that the bosses will have a watchful adversary which will expose and strike every abuse of their power. It means that the Cleveland administration will be protected in its attempt to carry out an honest Democratic policy from boss conspiracy in New York State. It means that the bosses must bend to the will of the party or be smashed by a party revolt.

"ST. LOOIS" OR "ST. LOOIE."

A correspondent, wishing to be accurate. asks for the correct pronunciation of Louis." The name of our good city has been pronounced in so various ways that such a request, often repeated, is quite to be expected. And really the mater ought to be decided for good and all.

The Legislature of the State of Arkansas decided that the name of their Commonwealth should be pronounced Arkansaw This settled the question with every lawabiding person, and as most other persons find it easy to abide by a law which takes nothing out of the pocket and causes no inconvenience, the lawlessly disposed joined the law-abiding in this matter of pronunciation and Arkansas is now Arkansaw for all time whenever the name i spoken.

The City Council might settle the ques tion of the pronunciation of "St. Louis," or the question, after a full discussion, might be submitted to the vote of the people. The decision would undoubtedly b in favor of "St. Loois" or "St. Looie," the other variations being hardly admis sible. "San Loois" would not do, and we could not tolerate "Sint" or "Sant." "Sin Loois," of course, could not be considered for a moment. A statesman a Uhrig's Cave once spoke of "the great city of Sent Loois," and it may be that in the neighborhood of Lowell this pronunciation even becomes "Scent Loois." There is no limit to the variation in pro nunciation when no one is held to the proper one by legislative enactment.

The city having been named in honor St. Louis, many suppose that the pronunciation should be "St. Looie," that is the correct pronunciation of the name of the Saint. Louis is not an English name, and Hume, in anglicizing it in his history, always writes it "Lewis." All the French kings of the name "Louis" are ''Lewis'' in Hume's writings. Thos who say "St. Looie," in speaking of the city, may think it is more honor to the sainted King of France, for whom it was named, to use the French pronunciation. English, and it is perfectly natural that There ought to be patriotism there should be those who hold that the names of our cities should be as nearly English as possible. The "St. Loois"

o know exactly what to call itself. It is ot worth while to put off this matter any onger. It should be thoroughly dis

THE accounts of the suffering of the destitute in Cincinnati suggest reports from famine districts in Europe or India. It is incredible that hundreds of men, women and children should be starving and freezing to death in the center of the riches and most generous country on earth, while store-houses are clogged with grain. Whatever may be the cause of the poverty of the poor of Cincinnati it is the fault of Cincinnati that they are starving and that the city is threatened with a bread riot. The well-to-do people of that city are certainly able to provide for the temporary wants of the destitute in an emergency of the present kind and if they are unable or unwilling to do so an appeal to her neighbors would bring abundant supplies. What is the matter with the newspapers of the city? They must have been singularly negligent to permit hundreds of persons to get into a starving condition without an appeal to popular charity. The Cincinnati situation is a reflection upon the charitable generosity of the whole country.

In view of the fact that the blacks wer nade voters by the Republican party, does not this quotation from a Republican journal seem a little out of place: "The Baltimore Republicans have done well to abandon the policy of dealing with the negroes as if they were governed by a sense of moral responsibility. It is better to buy their votes when they are needed, as the Democrats do '' The Republican scheme, in enfranchising the negro, was not intended to give him the right to vote as he pleased. If it had been for a moment supogsed that he would vote any other than the Republican ticket, the Republican managers would have assumed from the first that the negro has "no sense of moral es ponsibility."

HUSBANDS are at last to be protected There is a bill before the Ohio Legislature providing that husbands may sue their wives for alimony. Under the past unenlightened policy of the law-makers, a woman might leave her matrimonial companion without a cent. She might have a million of her own money and the man she had promised to love and obey could not touch a nickel of it, though his bar bill had been running a month. It is remarkable that this injustice has been so long permitted to exist in a land where equal ights are supposed to be accorded to all.

Bourson organs are very confident that Mr. Carliale will not take the Walker tariff as the model for his measure because the people will not tolerate such a radical leasure. This is another way of saying hat the people want and need a higher tariff than was thought necessary forty years ago before our industries were established. It is safe to say that this view will not commend itself to the common sense of the country and will not be considered by the framers of the reform bills.

THE coal fields of Nova Scotia have probably passed into the hands of an international syndicate back of which stand the Canadian and Reading Railways. As the mines of Pennsylvania and other States are being shut up to prevent "overproduction," it will be seen that the acquisition of the Nova Scotia fields is for speculative purposes only. In view of all the facts it is high time for something to be done to prevent "underconsumption."

A CORRESPONDENT, writing of the effect of the Panama scandal, remarks that it has taught Frenchmen the value of moral character in public men. The evidence in the dal has shown the world what an astounding lack of it there is in French public men, and if the French have learned that it is necessary to the purity of society and the stability of government the lesson is worth the cost.

SENATOR COCKRAN of St. Joseph has inroduced a bill to compel any person desiring to appear before a Senate committee for the purpose of speaking for or against measure to give his name, business and interest in the proposed legislation. This would be discouraging to the professional lobbyists, and so far would be good, but it is doubtful if anything less discouraging than a club would rid the Legislature of that species of human vampires.

A Row among the Democrats of New York is not of so much consequence now as it has been in the past because that State is not necessary for the maintenance of Democratic ascendency. With Illinois and Wisconsin in the column and Ohio doubtful a fight in the Empire State would probably have a salutary effect rather than the reverse. The time has gone by when national policy must wait upon the spats of New York politicians.

The Way of "De Push." To the Editor of the Post-Dispatch:

How long is a long-suffering and patient public to be burdened with such inefficient nanagement as exists in our Street Depart-Never in the history of our city, since the old days of adam streets, has the city macin such a filthy and horrible condition. The experiences of to-day with the wind blowing clouds of dust and refuse matter through the air into the throat and lungs of our citizens, destroying their merchandise and rendering their homes until for occupancy is enough to olsy and drave from our midst the most loyal. How must this impress a stranger in our midst? It is a shame and disgrace that our Street Department either cannot or will not clean up our streets, and I hope that the Post-Drayar will take hold of this matter and use its best efforts to abate this intolerable nuisance. A CITIZEN.

To Disinfect Sewers. Editor of the Post-Disputch:

The subjoined is clipped from a journal of recent date and is embodied in a foreign telegram. Have any of our scientists noticed it and if so, have they given it any thought? We have numerous sewers that are said to be impregnated with germs of all kinds where experiments might be profitably made, to say nothing of its appliance to the water we

drink.

"A German savant proposes to disinfect the Elbe and other rivers by means of electricity. He claims that an electric current. passed through the water will cause a chemical change that will kill cholers and other germs. He says that sewers can be disinfected in a similar manner."

Property Qualifications.

What are the qualifications necessary for a Grand-juror? Must a man be a millionaire, noted politician or a merchant with a big oank account to be eligible for that position Why is it that the working class is selded or never represented on that august body less accompanied by wealth and riches, not qualify a man for the Grand-Jury or Board of Police Commissioners? Are the alone only manufactures. f Police Commissioners? Are the rich nly qualified to fill those very im-positions? None others need apply. JOHN F. O'GRADY.

Frotest the Public.

To the Editor of the Post-Dispa tch: Won't you please stir up the management of the Bellefontaine car line in regard to giving the public better accommodations? en this morning by compulsion in a car containing sixty odd passengers. Those who manage, this extremely cold weather, to get inside of the car are considered very fortunate, while the back platform was occupied by several ladies unable to get into the car. Cannot they be forced to supply more car. Cannot they be forced to supply more cars? A street car superintendent appointed by the city should be appointed if nothing else can be done. This is the sentiment heard expressed by at least FIFTY PASSENGERS.

Tax the Men Who Don't Vote.

To the Editor of the Post-Dispatch: I would like to suggest a way to make the tizens vote, especially property owners. It should be a law that every voter should put his name in the ballot box on a slip of paper, and those that don't vote should be taxed more than those that do, giving citi-zens something for being citizens. A for-eigner can own property without becoming a citizen. He should be a voter, or pay more per cent taxes than those that do vote.

A South St. Louis Complaint. To the Editor of the Post-Dispatch:

People in South St. Louis would like to snow why it is that Lafayette Park pond, and others in the West End, are kept in good order for skating while the Benton pond never cleaned. This park is kept by the city like others, and why should it not be cleaned and kept in order for skating, as these people pay taxes as well as others? If you will inform us through your paper we will be very thankful to you.

RAILWAYS NEEDED.

A Requirement for the Growth of the Indian Territory.

PLANE FOR GIVING ST. LOUIS BETTER CONNECTIONS.

A Panelty of Bast and West Lines-Set tiers Desirous of Closer Relations With St. Louis-Projects for Obtaining This-The Feeling Among the Indians Favorable to Annexation.

ment of the Indian Territory is to be found in the small number of railroads. There are practically but three lines in the Territory the Frisco, the Santa Fe and the Rock Island, and the 'Frisco does not strike the best section of Oklahoma. The cause of this lack of facilities is that the traffic in the lands unprofitable, and the roads are not inclined to extend their roads in the face of the un-certainty as to the future now existing. The result is that Chicago and Kansas City get a much larger share of the business than they are justly entitled to. This state of affairs can, however, readily be remedied. An extension of but ninety miles from Gepulpa to Guthrie or Oklahoma City will bring the Frisco in immediate contact with the richest part of Oklahoma, and will give a direct line to St. Louis. For this the people of Oklahome are striving, as they are not at all sat-isfied with the present condition of affairs, and earnestly desire closer connection with

PLANS FOR RAILROADS. A plan that has met with much favor for reasing the railroad facilities is to induce each county to set aside a certain amount of land, or to issue bonds to aid in the cost of construction. There is already a line surveyed from Joplin, Mo., to Oklahoma. The Traffic Commission is moving actively in the matter, is in consultation with the railroads, and is prepared to act as as the question of opening the is settled. The Frisco has lands 15 settled. The Friscy has surveys already completed both to Oklaboma City and to Guthrie and various lines run-ning east and west, in which the Territory is peculiarly deficient, have been considered. But there seems little likelihood of railroads taking action until the questions before Con-gress are decided, which renders immediate action the more necessary.

taking action until the questions before Congress are decided, which renders lumediate action the more necessary.

INFANS FAVOR THE MOVE.

Whitman M. Carter, who has many business relations with the Cherokees and Choctaws, said: "The feeling in favor of opening the lands is growing stronger all the time. The more prosperous members of the community want to have the land divided in severalty and also want the conveniences of modern life. These it is impossible for them to obtain under the present regime. Capital is timidabout going into the Territory and so far cattlemen have been the only considerable investors. But with the proposed opening all this would change. The great bodies of land that are now nearly worthless would at once become very valuable, farms would spring up everywhere, railroads would follow, and the great mineral resources of the country would be developed. The Indians recognize the state of affairs, and the most influential is strongly in favor of breaking up the present tribal system and inviting the whites and outside capital."

At the Guthrie convention a number of the loading men of the civilized tribes will give their views.

Merchants' Fridge Terminal Co. Enjoined.

Merchants' Fridge Terminal Co. Enjoined. Judge Klein this morning granted an injunction against the St. Louis Merchants Bridge Terminal Railway Co. to go into effect next Saturday, which restrains the company next Saturday, which restrains the company from operating its present track on Collins street, between the eastern line of said street and the western rail of the Wabash Railroad. The injunction was granted at the justance of Thomas Burke and others, whose property in that locality is injuriously affected by the running trains on the present track. The city ordinance required the terminal company to lay its tracks on the other side of the street, and the present tracks were laid in violation of it. The time for the restraining order to take effect was extended one week to accommodate the Jacksonville & Southeastern Road, as the present track is the only one running into their depot, and the court did not wish to interrupt traffic while the change of tracks was being made.

The Adamant Co.'s Affairs

Daniel G. Taylor, assignee of the St. Louis damant Plaster Co., filed an inventory of the effects of the company in Judge Harri son's court to-day. The assets consist of a son's court to-day. The assets consist of a ten-year lease from May 1, 1889, of the property on which the plant is located in survey 8,809, a license to manufacture adamant plaster, stock, fixtures and machinery, the value of which is not given, but on which there is a mortgage of \$25,000, book accounts, \$6,609.62; money received, \$46.80, and deposit in bank, \$8.04. Against this there is a bag account of \$1,315, to be refunded to certain parties upon the return of the bags.

The City Sue1

The four minor children of Joseph Emory eceased, by their next friend, Seth Kay, brought suit to-day against the city of St. Louis for \$5,000 damages for the loss of thei father, who was killed on 'Dec. 27 last at the new waterworks while in the employ of the city. They allege that he was struck by a heavy iron trolley which was run in a defective manner and received injuries which caused his death.

Michael Hanlon obtained a judgment to-day in Judge Klein's court against Benjamin 'Keefe for \$179.25, the value of a horse. The Deer Park Realty Co. incorporated today with a capital stock of \$10,000, 90 per cent paid up. The incorporators are James E. Fogg, F. C. Witherspoon, J. M. St. Clair and others.

A VILLAIN CAPTURED.

Another Attempted Assault on a School VENICE, Ill., Jan. 14 .- Another dastardly attempt at assault was committed at the public school grounds yesterday afternoon.
While Myrtle Sink, the 10-year-old daughter of G. W. Sink, was in an outbuilding, she was selzed by a ruman, who attempted to throw his cap over her face and lock the throw his cap over her face and lock the door to prevent her escape. The girl screamed and the man became alarmed and find toward Madison.

Pat McCambridge, Deputy Sheriff at Madison, found the fugitive at a boarding-house. When arrested he resisted, striking at the officer with a case kniffs, with which he had been eating. He was brought back to Venice and lodged in fail, where he was identified by the Sink girl. The feeling soon ran high, and fearing an attempt at lynching, Marshal Hurt conveyed the prisoner from the jail about 8 p. m. to some place of concealment which could not be learned. He gave his name as James Maher. He will have a hearing this morning. A similar outrage was attempted at the school house last Tuesday by two min. The girl attacked could not ideatify the prisoner as one of her assailants.

Refuses to Officiate at the Feast of St. Agnes.

PROMISE GIVEN TWO MONTHS AGO AND CURTLY WITHDRAWN.

Erchbishop Corrigan and Bishop McQuaid of Rochester Were to Take Part in the Gelebration-Dr. O'German Denies That Any Invitation Had Been Extended to the Papal Commissioner.

New York, Jan. 14.—A new element was added yesterday to the Corrigan-Ireland-Satolli controversy by the statement that Mgr. Satolii would not, as expected, come to this city to celebrate pontifical mass on Sunday, Jan. 22, at the Church of St. Agnes. It would arrive here the night before the cele-bration in Dr. Braun's church would stay over Sunday with the pastor, visit Archbishop Corrigan and be the chief official at the mass It was also announced that Archbishop Corrigan would be present, and that the pane gyric on St. Agnes would be delivered by Bishop McQuaid of Rochester. In addition to the archiepiscopal dignitaries it was stated that many well-known priests would take

When asked about the latter, Dr. Braun re-"Mgr. Satolli promised to sing the mass in St. Agnes' Church on our feast. His promise was given two months ago and repeated to me in a letter of Jan. 4. I was naking preparations for his reception when, four days afterwards, on Jan. 8, he notified me that he could not come. I do not know why he changed his mind. Since that he has why he changed his mind. Since that he has written me a very friendly note, but he does not say in it why he changed his mind.

"Bishop O'Farrell of Trenton takes his place and will sing the mass. Bishop McQuid of Rochester will preach, and those who want to listen to the education question treated by a master hand had better come and hear him. Most Rev. Arch-bishop Corrigan will preside in the sanctuary. Bishop McDonnel of Brooklyn will also be present. The music will be grand and the sermon eloquent. Our dinner will be served in the large hall of the beautiful new parochial school."

POSITIVELY DENIED.

Washington, D.C., Jan. 14.—Dr. O'Gorman denied positively last night that Mgr. Satolli, Bishop Kean or any of the Catholic University ever intended to go to New York for the ity ever intended to go to New York for the celebration at St. Agnes' Church, on Jan. 22. "We are not going and we never intended to go." said ir. O'Gorman last evening. "Neither Mgr. Satolli nor Bishop Kean nor myself ever expressed any intention of attending this celebration. We never formally accepted any invitation that might have been given by letter nor verbally that we would go. Bishop Kean sometimes goes to New York on business connected with the Catholic University, but there is no significance in the fact that he or any one else from here does go."

NEGRO EXODUS.

Blacks Leaving Texas for Oglahoma in Large Numbers.

FORT WORTH, Tex., Jan. 14.-The exodus of negroes from Averills Parish still con-tinues. The greater portion of them go to Oklahoma. Yesterday fully 200 stopped at the Union Depot in this city and changed cars for that point. They gave the same reason for that point. They gave the same reason for leaving Louisiana as the one given by a former contingent that passed through here about three weeks ago are bound for Oklahoma. This reason is that they were forced to leave by their white neighbors who objected to them attempting to establish scnools for their children. All of them were born and reared in Averliis Parish. Among them were many old negroes who wept over having to leave the place of their nativity. The negroes seem to have been well-to-do, but say they were compelled to dispose of their property at a sacrifice. More they say will follow them and the exiles will try to retrieve their fortunes.

The temperature will begin to fail this evening and will reach 10 degs by Shighay. Forecast for St. Louis—Fair, except light show to-day; much colder. Dornbusch says: Already in a little over four months, the U. K. has imported from all sources more than 10,000,000 qus wheat and four, representing nearly one-half of our annual requirements, (provided we are to carry over to 1893-94 stocks of 3,000,000 qrs) and no one; who understands the wheat situation can deably for one moment that in the next eight months we shall be able to gather enough from the United Sityes, Russia, India, Anstralia and South America; 10 complete our requirements of aimost 11,000,000 qrs. The prospects are mensed at amost 11,000,000 qrs. The prospects are merchants can be confessive amberibe to accupie of months.

Telegraphic advices on, the condition of winter wheat indicate the crop in Northern Missouri is in bad shape, the drouth, lack of saver a hard freer, we have a supported as in good condition and well protected by snow. From Ohio reports vary, some describing the crop prospects as gloomy and others saying they are excellent. In Indiana the general statement is that the condition of wheat is favorable and little damage feared. The same remark applies to Michigan, with the siddition that snowcovers the ground to adepth of several lanches. The worst reports come from Illinois, where in most sections there has been insufficient protection by snow and the dry, freezing weather basianjured the plant.

Berbohm ead Jan 1: Generally speaking the condition of the early-sown wheat is regarded as favorable, but the reports are numerous that the area sown, especially in the leading wheat-growing countries, is very small, owing to the ruinously low price. In France the change to cold weather—10 degs, below zero—15 reports of means and the condition of the early-sown wheat is regarded as favorable for cnecking the too rapid growth of the young plants, and

Critcago, Jan. 14.—The whest market opened west from 82/8c to 82/4c, and sold as low as Silyr. The resilizing from the opening was letty. The having was largely from outside points. French cables were reported afrong and advancing, owing to unfavorable meather. We have to look for a setback to about 80c but at this writing it does not look litte it. There is a general fear that Pardridge may become a buyer. If he does, and through his many broats, we are apt to have a surprise in the way of an advance. The big holders have sold considerable and it has lodged with the outside. This is not liable to come on the market for awhile unless there is a substantial advance. Whatever may result in the long future is a question of weather on this continent and on the other side of the Atlantic. The near future, with a little soitive buying and weather scares will give us higher prices. We would like to say much about corn, but there is little to say. We believe in higher prices. We would like to say much about corn, but there is little to say. We believe in higher prices. The cash demand is good. The same remarks apply to cass. The chain demand is good. The same remarks apply to cass. The tousiness in hog, product is duil. The market looks a little strained and will sall lewer if hor receipts increase. The liquidation has been heavy by our local successful operators, who have been leaders on the advance.

stock of wheat for week, and but a moderate increase in orn.

Estimates on the next visible of wheat run from 500,000 but increase to a small decrease. Une year ago it decreased 1,514,000 but.

Exports of wheat and flour from twelve ports were equivalent to 3,308,907 but for past week, against 3,006,000 but last week and 3,241,000 but for corresponding week last year.

English farmers' deliveries of home-grown wheat for week were 57,602 grast 255 4d, arainst 31,059 grast 255 10d last week and 68,998 grast 355 4d for corresponding week last year.

The Paris Le Fermier'estimates that the country will require 16,506,000 but of wheat to meet her demands, in campaign of 1892-'93, and as only 3,300,200 bu have already been imported, 13,200,-000 but will be needed to astisty her requirements.

Beil's Weekly Massenger save that scarcely a complaint is to be heard from farmers, either British or continental, who sowed wheat in Oetober. The plant made a good start and promises well, the growth being remarkably healthy and regular.

The available supply of wheat in this country on Jap. 7, according to Braditzer's was 105 738, 115 plant made a good start and promises well, the growth being remarkably healthy and regular.

The available supply of wheat in this country on Jan. 7, according to Bradstreet's was 105,735,115 bu easiand 9,200,000 bu west of the Rockies, a total of 114,935,000 bu, agmest 6,471,000 bu one year ago and 59,810.000 bu two years ago. The amount in the United States, Canada and affoat for Eurepe and Australia on Jan 1 was the largest ever known, the reported total being 184,217,000 bu, or 25,700,000 bu larger than one year ago and 60,000,000 bu more than two years ago.

Weather conditions to-day—An area of low pressure has formed in Sustawest Missouri which will probably move northeast. This is accompanied by much warmer weather. As the storm moves easiward decidedly colder weather will occur bashind it. The temperature will begin to fail this evening and will reach 10 degs by Sabday. Forecast for St. Louis—Fair, except light snow to-day; much colder.

ol Board Members Not in Favor of the Gurnes Bill.

A bill has been introduced in the State Legislature by Representative Gurnes, which provides for a change in the manner of electing the presiding officer of the School Board. Under the present system the members of the board elections of their number President, as is done in Congress in choosing a Speaker and in the lower houses of the Legislature and the local Municipal Assembly. The bill just introduced contemplates taking this power out of the hands of the members and putting it with the people at the polls. In other words the President of the board must be selected by the people, just as the President of the Board of Public Improvements.

President Gist Blair, who has succeeded Mr. Richard Barthold as President of the School Board, was seen and asked what he thought of the measure.

"I would not like to venture an opinion," he stated, "until I know the full text of the bill. Besides, I know only of the working of the present system. There are so many reasons in favor of both systems that I would not like to express myself on the proposed change without considering it carefully. This is the first I have heard of it, and I have not given the matter a thought." has been introduced in the State Leg-

a thought."
Attorney Stark of the School Board said: "It is not my place to discuss this, but I think the existing system is a good one, because it has kept the election of president out of the field of partisan politics. Take the last case when there was a Democratic majority, a Republican, Mr. Barthold, was elected, and with two vacancies and a Republican majority, Gist Blair, a Democrat, was elected.

elected, and with two vacancies and a nepublican majority, Gist Blair, a Democrat, was elected.

"I do not think it would be advisable to have a president elected unless he could be tried in the position very much as the directors now are, and after that elected. The present system seems to work very well and I see no reason for a change."

Secretary Player was asked for a history of the deadlocks which have occurred in the board which he could recall. He said:

"All the fights have been upon established issues. For example, in the Auter-Miller fight. It was upon the question of reorganization and there the fight came in. Of course, if the President had not had the power to appoint the committees and if the members did not have in consequence an indirect control of them, the fight would not have been made. I don't think the proposed change a good idea. A business man unexceptional in his own business might be elected and prove a failure, having perhaps a lot of notions and ideas which would not conform with the established systems or with those of the other head officers, and then there would be no remedy."

The Auler-Miller deglock did not delay the

Sheehan said it cost \$30 for a comn, he testified, and the men, he alleged, told him to make out a bill for \$40, which they would make the union pay, and they would keep the \$10 extra. They also claimed 10 per cent of the shire bill. Sheehan refused the proposition, he stated. He buried the body, he alleges. Deeke and wock testified that they wanted the extra \$10 for their own expenses.

The English Fighter Will Sail on

HE RECIPROCATES THE AMERICAN CHAMPION'S DESIRE FOR BATTLE

Charley Is Thriving on Short Bations Jim Daly Afraid of Chownski-Corrican Wants La Masney Back at Haw thorne-Beach Show Schedule for the Coming Year-General Sporting.

Unless all signs fall, there is a very strong probability that England's champion long-distance mouth fighter will sail for this side of the pond very soon, with the avowed in-tention of arranging a meeting with Jimmy Corbett. In fact, Mitchell says that he is only waiting to serve out his term of imnment, which ends Tuesday, Jan. 81, to make his preparations to come to this country, and declares that he will be here early n February with some of his friends, to disuss the terms of a match with Corbett,

The fact that Charley has been engaged in so much wordy warfare in the past, which in any material results, makes the sporting the sincerity of his present declarations, and they are inclined to look upon the whole matter as one of his characteristic bluffs.

According to one of his intimate friends, Bernard Abrahams, a London solicitor, who recently visited Charley in prison, he is in better condition than he has been in years, and his incarceration really seems to have

"I saw Mitchell last week," writes Abrahams to Jim Hall. "He is in capital spirits and seems none the worse, but really considerably the better physically, for his incarceration. He desired me to say to you that he would be out of prison on Tuesday, Jan. 31, and that he would surely sail for the States on Wednesday, Feb. 8. So you see he has arranged his dates nicely. I do not sider that Mr. Corbett has a walkover when they have a chance to see Mitchell. I do not think he has looked so well as he does now in five years. True, the food they gave him is not of a kind calculated to make muscle, nor are his surroundings of a character to put a man in the best of spirits. But he has no more right to be where he is than a man in Zanzibar has. This is, perhaps, consoling to him. From now on, I am advised, they will be more lenient with him. He is sure to meet and conquer the American. Mark me down for that." sider that Mr. Corbett has a walkover when

His rival for the Chicago winter patronage—Roby—has also been after them and so have the managers of the New Orleans track. Corrigan's agent induced Fred Ger-nardy, some time ago, to send Prittiwit and Hy Dy to Hawthorne and Fred has won considerable with the former up there. Hy Dy,

Hy Dy to Hawthorne and Fred has won considerable with the former up there. Hy Dy, however, did not like the going and Fred shipped him back again. The Roby agent succeeded in having Lou James send Tempelmore and Tammeriane and F. C. Kammerer, who owns several good-fornothing platers, including the colt Guess, to the new Chicago track. James' performers both won races, while Guess, who could not be sold for over \$35, shortly before he was shipped, ran third in a race that included some of Roby's crack 3-year-olds a few days after he arrived there.

Ed Corrigan has been endeavoring to patch up his differences with Dan Lamasney. Both the master of Hawthorne and the owner of Service and Lillian come from Kansas City, and were at one time good friends. Corrigan, however, is a hard man to get along with, and some time ago he quarreled with Lamasney. He wanted the Lamasney cracks to race at his track, however, and a representative of his called on Dan recently and after stating that Corrigan was willing to smoke the pipe of peace with him, endeavored to persuade Lamasney to race at Hawthorne. Dan, however, said Bast St. Louis was good enough for him for the rest of this winter at least, and Corrigan's agent was compelled to admit that his master's wishes, as far as having the Lamasney cracks at his Hawthorne track were concerned, could not not be accomplished.

W. Wheeler, who returned from Chicago recently, says that racing at both Hawthorne and koby is getting to be the biggest kind of a farce. "Why," said Mr. Wheeler, "Old McGinty, who used to run with 30 to 4 posted against his chances at East St. Louis is a regular Hindoo up there. He wins two or three races a week and is the iddo of the public. As a whole I have never seen such a collection of 'worked to death' race horses and cold weather as is now to be witnessed daily at the city where the World's Fair is to be held."

Barney Schrieber has taken his entire stable, with the exception of Hoodlum, Pennyroyal and the 2-year-olds who are at the Fair Grounds, to the Roby track.

Stevenson carried off the honors in the saddle at the course across the river yesterday. He piloted both Zed and Catoosa to victory and rode good races on them both. Two favorites, a pair of second choices at 4 to 1 and one outsider at 15 to 1 were successful. The track was fast and the sport good. Hart made his maiden winning on Alice Clark. Hy py's defeat caused much surpeise. Although not in the best of condition, the old gelding's owners thought be had nothing to defeat. For the inaugural scramble Red Cloud was backed down from even money to 4 to 5. He ran second, one-half a length behind Eldorey, Moss Terry, first choice at 6 to 5, won the second event, driving, by a neck, from Jolly Tar, who was the same distance in front of Walker. Baffiled Best Medical Skill for Eight Months. Cured in Two Months

This is to certify that a child of mine had Eczema in its worst form, and which baffled the best medical skill that could be employed here. The little sufferer was wrapped in agony for at least eight months. Six months of that time its suffering was simply untold, then I began the use of the Curicura Remedicine, in two months the awful disease had ceased its vengeance, and my dariling boy had rest, and to all appearance the disease had yielded, but I continued the medicine for several months after no trace could be seen of it on any part of his body. The doctors here watched the disease with much interest, and could only say "Well done!" The case was known far and wide, and everybody was much surprised. But thanks to Curicura REMEDIES. Could there be anything on earth that would cause a father to rejoice it surely would be when the little innocent one could have such a remedy at hand. (see portrait herewith.)
